

ENCA-DH

DisplayPort to HDMI Adapter

ENCA-DH enables you to connect directly any HDMI ready device (monitor, projector...) to a DisplayPort interface (on Laptop or Desktop...). It is the perfect choice for conference room projectors, digital displays and remote PC applications. It allows you to connect displays using older connection standards - HDMI. So upgrading to high performance with ENCA-DH won't blow your budget. Remember those problems when a projector never working right with your notebook? Never worry about it again. ENCA-DH provides a true plug and play digital projector experience with your laptop. Projectors are notebook friendly again.

Features and Benefits

- Easiest way to connect PC with DisplayPort output to HDMI ready devices, such as monitor and projector
- Compliance with DisplayPort Specification V1.1a
- Support up to 1920 x 1200 (WUXGA display) , with up to 12-bit deep color
- Support 18/24 bitdepth per pixel color format
- Support DPCD Rev 1.1
- Support Interrupt request output for expansion function

Specification

Connector	DisplayPort Male to HDMI Female
Standard	Compliant with DisplayPort Specification v1.1a
Resolution	Up to 1920X1200 (WUXGA Display) and 1080p @ 60Hz (Full HD Video)
