PIVOS XIOS DS MEDIA PLAY
THE NEXT GENERATION MEDIA GATEWAY THAT FITS IN THE PALM OF YOUR HAND

What is the XIOS DS?

One of the world's smallest embedded system that packs thousands of internet and mobile features. Powered by the ARM Cortex A9 processor, it is built on the Android 4.0 (Ice Cream Sandwich) platform. This allows the unit to natively support HTML5, Chrome, Flash, and even Google Play apps!

The XBMC Experience

The XIOS is the official development platform for the XBMC media player. This robust and flexible interface allows users to automatically organize their media files with a custom interface. XBMC will even download IMDB information and beautifully display it on your HDTV!

Further empower it with widgets, apps, custom themes, emulators, ROMs and more to make this your very own entertainment center.

Universal Capabilities

Supporting full 1080P high definition playback is one thing. The XIOS DS supports virtually all video and audio codecs available!

Easily update firmware and features by connecting to XBMC's online repository through the built in Wifi (B/G/N) or Ethernet port to continue to expand its capabilities.

Dedicated Video Processing

Handle the mangitude of features and multi-tasking capabilities, the XIOS DS employs a deidicated Mali-400 video processor. That allows you to use the main processor for browsing, installing, or customizing your unit while your enjoy your media simultaneously.

PRODUCT INFORMATION

Product Name	XIOS DS Media Play
Pivos Part #	PTGMCXDALU-US
Description	Ultra Slim Android (ICS) Entertainment Device (1080P / WIFI / HDMI / XBMC)
Certifications / Safety	CE / FCC / RoHS
Product Warranty	1 Year Warranty
Unit Dimensions	3.93" (D) x 3.93" (W) x 0.66" (H)
Packaging Type	Box Packaging
Packaging	6.30" (D) x 6.30" (W) x 3.30" (H)
Net Weight	1.54 lbs / 0.70 kg
Gross Weight	1.65 lbs / 0.75 kg
Units / Inner Carton	20
UPC	855710003052

VITALS

Supported Codecs and Formats
MPEG 1/2/4, H.264, VC-1, WMV, M2TS, TS, RMVB, AVI, MKV, MOV, FLV, DivX, Xvid, and more.
