

## ENUTV-DAQ PC HDTV Tuner

With your ENUTV-DAQ PC HDTV Tuner, watch and record HDTV programs on your computer, anytime, anywhere, over the air or from your cable connection. Just plug it into your USB port and the tuner picks up local channels directly to your computer. You can schedule recordings for future playback – for just a fraction of the cost of a DVR. Better yet, with the software we've included burn DVDs or transfer your videos to devices such as your iPod® or iPhone® or PSP®. The PC HDTV Tuner makes digital entertainment portable.

### **Feature/Benefit/Advantage**

#### ***Watch and record full quality HDTV***

- Receive full quality HDTV programs on your laptop or desktop. Watch and record your favorite shows anytime, anywhere.
- Your over-the-air local channel list or your local unencrypted cable channel list is automatically generated with the correct channel numbers you are familiar with on regular TVs.

#### ***The PC HDTV Tuner as a Digital Video Recorder***

- Schedule a recording: save your favorite shows routinely and digitally on your hard disc for future playback.
- Record and playback live TV shows simultaneously with the time-shifting functionality, in case you just need to be away momentarily.
- Easily find out what's on TV with the automatically updated Electronic Programming Guide (EPG).

### **TotalMedia™ 3.5 software: it's not just about watching TV!**

- Create your own collection of TV shows with a personal touch, edit your recordings and burn DVDs for your DVD player.

### **Portable Digital Entertainment**

- Free portable antenna and remote control – enjoy HDTV programs wherever you go.
- Transfer recordings to mobile devices such as your iPod®, iPhone® or PSP®. Share and enjoy digital entertainment on the go!
